Projects Writing Speaking About Blog

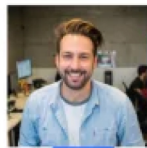

HEY THERE!

My Name Is Matthew Taylor.
I Am a Web Developer Based in New York City 🇺🇸

I am a passionate JavaScript and PHP developer who lives for open source. I'm also the creator of the Peak.js framework.

I also enjoy sharing what little I know with others by giving trainings and workshops and recording podcasts. Recently I published a book on programming.

You can also explore my open source work on GitHub and Codepen or follow me on Twitter and Facebook if you want.

Projects Writing Speaking About Blog

I LOVE TO BUILD THINGS 🧩

I am the creator of the Peak.js framework which has been thriving for the last 10 years. I also love to collaborate with other developers and designers on different projects you can explore on [GitHub](#) and [Codepen](#).

Peak.js Framework

Core framework for all web, mobile and desktop applications. It's a simple and powerful framework that makes it easy to build web, mobile and desktop applications.

[Github](#) [Go to Website →](#)

Github

React Example Project

Core framework for all web, mobile and desktop applications. It's a simple and powerful framework that makes it easy to build web, mobile and desktop applications.

Fifteen.js

Core framework for all web, mobile and desktop applications. It's a simple and powerful framework that makes it easy to build web, mobile and desktop applications.

FrontStart JS

Core framework for all web, mobile and desktop applications. It's a simple and powerful framework that makes it easy to build web, mobile and desktop applications.

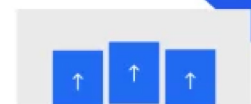

Thirteen

Core framework for all web, mobile and desktop applications. It's a simple and powerful framework that makes it easy to build web, mobile and desktop applications.

Simpler Studio

Core framework for all web, mobile and desktop applications. It's a simple and powerful framework that makes it easy to build web, mobile and desktop applications.

Codepen

Traverse - Parallax Scrolling With JavaScript

Core framework for all web, mobile and desktop applications. It's a simple and powerful framework that makes it easy to build web, mobile and desktop applications.

Loading Animation Without Plugins

Core framework for all web, mobile and desktop applications. It's a simple and powerful framework that makes it easy to build web, mobile and desktop applications.

Smooth Color Switcher

Core framework for all web, mobile and desktop applications. It's a simple and powerful framework that makes it easy to build web, mobile and desktop applications.

Portfolio

I'M WRITING ABOUT THE WEB

How sharing what I know with others, which is why since 2005 I've written a number of articles on coding, design and newest web technologies. In 2019 I also became a book author and editor.

Modern JavaScript Programming: Developing Interactive Websites

Learn how to build a modern, interactive web application with the latest JavaScript and CSS. This book is a comprehensive guide to building modern web applications with the latest JavaScript and CSS. It covers everything from the basics of JavaScript to advanced topics like asynchronous programming and web APIs. The book is written in a clear, concise style that makes it easy to learn and understand. It is a must-read for anyone who wants to learn how to build modern web applications.

Schedule

MATTHEW TAYLOR

I'm a 32 Years Old Developer, Speaker and Writer From Denver, Colorado 🇺🇸

Education

2009-2012 [Platteau, CO](#)
[Western Churchill High School](#)
Open door school, computer programming and design. Learning JavaScript, CSS, HTML and design. Also learning about the world and the people.

2012-2014 [University of Wisconsin-Madison](#)
Learned about the world, computer programming and design. Learning about the world and the people. Also learning about the world and the people.

2014-2015 [Interface & Strategic Designer](#)
Learned about the world, computer programming and design. Learning about the world and the people. Also learning about the world and the people.

Awards

2019 [The Million Award](#)

2019 [Developer of the Year Award](#)

2019 [Developer of the Year](#)

Experience

2017-2019 [Web Developer](#)
Learned about the world, computer programming and design. Learning about the world and the people. Also learning about the world and the people.

2017-2019 [Launched „Kontiki“](#)
Learned about the world, computer programming and design. Learning about the world and the people. Also learning about the world and the people.

2017-2019 [JavaScript Developer](#)
Learned about the world, computer programming and design. Learning about the world and the people. Also learning about the world and the people.

2017-2019 [Launched „Peak“](#)
Learned about the world, computer programming and design. Learning about the world and the people. Also learning about the world and the people.

2017-2019 [Published „Modern JavaScript Programming“](#)
Learned about the world, computer programming and design. Learning about the world and the people. Also learning about the world and the people.

2017-2019 [JavaScript Developer](#)
Learned about the world, computer programming and design. Learning about the world and the people. Also learning about the world and the people.
